ZEUS® SRX

QUICK START GUIDE

This document describes the basic controls of the B&G Zeus® SRX multi-function display (MFD).

For the latest version of this document and other app guides, download the B&G mobile app, scan the QR code®, and connect with your Zeus® SRX, or visit:

www.bandg.com/downloads/zeus-srx.

→ **Note:** Refer to the enclosed installation manual before you turn on the unit.

BASIC CONTROLS

To turn the unit on, press and hold the power button (A). A beep indicates the unit is powering up.

To turn the unit off, press and hold the power button, or select **Power off** from the quick access menu.

- A Power key**
 - Tap once to turn the unit ON.
 - Tap and hold to turn the unit OFF.
 - Once powered on, tap once to display the activity bar
 - With the activity bar visible, tap once to display the quick access menu

B Touchscreen

Power control

The Zeus SRX can control power to other devices. Power to the unit can be controlled by an external switch or other units. For details about available power options, refer to the unit's installation manual.

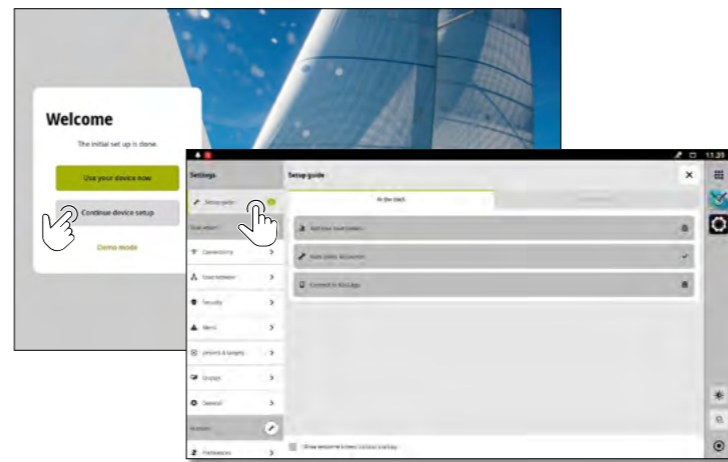

→ **Note:** If your MFD is controlled by an external power source, it can't be powered off using the power key. Instead, pressing and holding the power key puts the unit in standby mode. To wake the unit, press the power key again.

FIRST STARTUP

When you start the unit for the first time, or when you start it after a factory reset, you need to complete the initial setup for language, country, timezone, boat network, and follow the on-screen prompts.

SETUP GUIDE

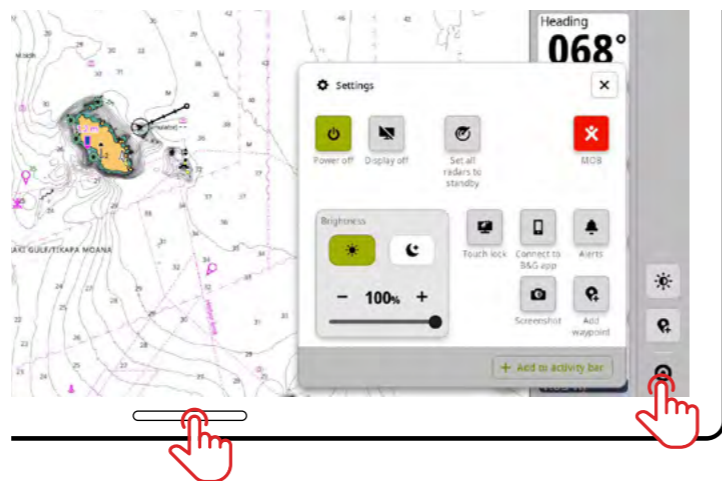

On the **Welcome** screen, select **Continue device setup** to complete the device settings. Alternatively, select the settings icon , located on the app drawer and the quick access menu, then select **Setup guide** to set up the unit.

→ **Note:** It is important to set up the MFD for accurate navigation and safety at sea.

QUICK ACCESS MENU

The quick access menu gives you immediate access to basic system settings and features. Press the power key or  to display the quick access menu.

→ **Note:** To hide the quick access menu, swipe up or tap anywhere on the screen.

APPS AND STATUS BAR

An app is a program for a unique feature or function. The availability of some apps depends on the size of your unit and the hardware that is connected.

For app-specific user guides, download the B&G app on your mobile device and connect it to your display unit, or visit: www.bandg.com/downloads/zeus-srx.

HOME SCREEN

Select  to open the app drawer, where you can launch apps and access system settings. The status bar at the top of the screen shows live system status and alerts.

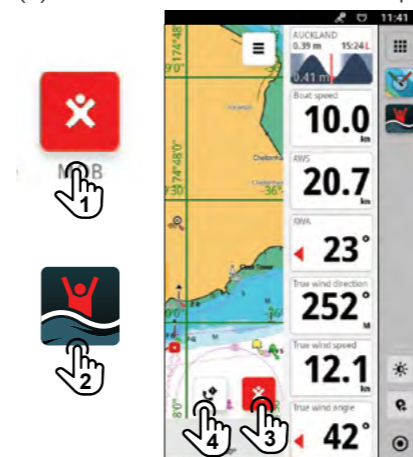

- C Home** – select to view the app drawer
- D Apps drawer** – a grid layout of all system and custom apps
- E Device status** – displays status of connected devices such as radar or autopilot
- F Alerts** – select to view recent and historic system alerts
- G Settings** – select to view MFD settings
- H System status** – displays the current day and time, along with the status of cloud sync, navigation, and internet connection

EMERGENCY AND MOB

Use the crew overboard (MOB) app for emergency situations. To open the app, select the MOB icon (1) on the quick access menu or select the MOB app (2).

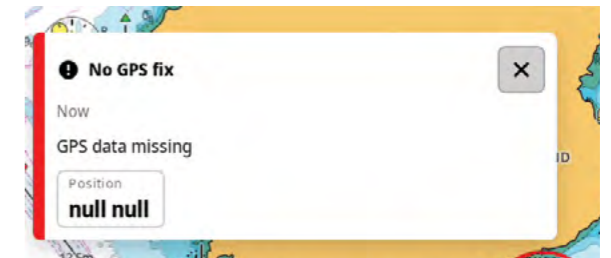

Select the overboard marker (3) to create a MOB waypoint at your vessel's location. Now select the call assistance button (4). Follow the instructions to respond to the emergency.

→ **Note:** Use the Waypoints & Routes app to remove your MOB waypoint.

ALERTS

The unit continuously monitors connected sensors and devices for alerts, system faults, and environmental changes. Alerts can be configured by setting up rules, navigate to **Settings > Alerts**.

CONNECT TO MOBILE APP

Select **Connect to B&G app** from the quick access menu to connect your mobile device (phone or tablet) to the unit.

Download the B&G mobile app from the App Store® or Google Play®, then scan the QR® code.

Once connected, you can use the mobile app to:

- View and download app guides on your mobile device
- Register your display unit
- Subscribe to Premium charts
- Create your own waypoints, routes and tracks
- Explore points of interest (POI)
- Monitor marine traffic and weather
- Download and apply software updates to the display unit

→ **Note:** An active internet connection is required for this feature.
